

WEDNESDAY, JUNE 30.

The Baptists propose to celebrate the Centennial year of American Independence by raising funds for their colleges and missions. Mr. Corcoran, of Washington, has offered to transfer his splendid country seat, near that city, to the Columbian University for less than half its value, the only restriction being that a certain sum in cash shall be secured. Yesterday he was assured that this amount had been raised, and thereupon he proceeded to make good his gift. To raise the remainder of the nominal purchase money a meeting of Baptists was held in Baltimore last night, at which almost the whole deficit was subscribed. An address was delivered by Rev. Dr. Curry, which for its independence and liberality attracted marked attention.

During the investigation into the loss of the steamer Schiller, some interesting particulars were given of the life in the Bishop Lighthouse, which is in the winter months cut off from communication with the world for long periods of time. The sea dashes and to the top, though it is 110 feet above high water mark, and the ordinary way of embarking and disembarking from a boat is to make fast the boat by a grapple and then let a man down by a rope, or hoist him up in a similar way to the door of the house. In a storm the tower trembles so much that plates and cups fall from the shelves and the glasses of the light break.

An application was filed in the United States Circuit Court, before Judge Shipman, at New York, yesterday, asking such modification of order of sale in the foreclosure suit against the Northern Pacific Railway Company as will give claims of first mortgage bondholders precedence over all others. It is understood that there will be no opposition to the motion, and that it will be substantially granted in a form providing that only a few prior liens, such as taxes, etc., (amounting in all to not over \$100,000), shall take precedence.

Gov. Bigler estimates that \$7,600,000 will be required for the Philadelphia Centennial buildings. Of this \$3,200,000 has been secured by subscription. Coupled with this about \$2,000,000 has been raised by the sale of stock, private subscriptions, sale of medals, &c., the latter articles being disposed of in immense numbers and yielding quite a large revenue. One million five hundred thousand will be required by the 1st of next January to carry out the plans of the Board of Finance.

A meeting of the bondholders of the Chicago, Dubuque and Minnesota and Chicago, Clinton and Dubuque Railway Companies was held at Boston yesterday for the purpose of hearing the report of the Committee of Investigation appointed at a previous meeting. The report shows that up to February 28, 1875, \$352,022.72 are unaccounted for in construction and railway company's accounts. It further states that wasteful and extravagant management is apparent.

The Mark Lane Express in its weekly review of the breadstuffs market says owing to floods in France and unfavorable reports from America the market is hardening. Northwestern Europe has been favored with plentiful rains, while the Eastern and Southern portions of the Continent are suffering from drought. The prospects are variable, and a general abundance is not to be relied upon. Germany and England have the best prospects, and Russia, Hungary and France the worst.

It is refreshing this weather to read about the Arctic regions, and in consideration of a comparison of climates, just now the Pandora, which left Portsmouth, England, last Saturday for the Arctic seas, may be said to have sailed with the envy of a great many people, as well as with the best wishes of the world for a safe, pleasant, and successful voyage to all on board of her.

The bottom appears to be knocked out of the additional evidence which Tilton's counsel proposed to submit in the Beecher trial. One of the men substantially admits that their statements were utterly false; but, as it would not have been sufficient for the ends of justice that the matter should have been dismissed at this point, both have been arrested on the charge of perjury.

We have known people who luxuriated in hot weather—that is they said they did. To such the Richmond Whig says: "Those who love hot weather have had a jolly time for several days past. If the intensity of their enjoyment has been in proportion to the intensity of the heat, their happiness has been supreme."

The Illinois Supreme Court declares the presumption of law to be, in the absence of proof to the contrary, that a name signed on the back of a note was signed before delivery to the payee, and therefore binds the signer to the liability of a guarantor, instead of the lesser burden of an indorser.

The international shooting match between the Irish and American teams, which took place at Dollymount, near Dublin, Ireland, yesterday, resulted in a signal victory for the Americans, the score being 967 out of a possible 1,080 to 929 for their Irish opponents.

The semi-Centennial celebration at the University of Virginia, is very successful, delegates being present from nearly all the States. Last night the celebration of the Jefferson Literary Society took place, the oration being delivered by A. M. Robinson, of Texas.

Among the candidates who have passed both the Medical and Academic boards at West Point, is J. S. Mallory, of Virginia.

Naval armaments are still in a transition state. It is asserted in England that the moment an eighty-one-ton gun is fairly floated, in a ship built to carry it and use it, the fate of sea-going armor-clad vessels of the present type is sealed.

Italy has now actually under arms 195,000 men, and it is said that this number will soon be increased to 300,000. The second section of the permanent army, known as the mobile militia, amounts to about 150,000.

The Fredericksburg Star says:—"The farmers in this section are generally through harvesting, and we are gratified to learn that the yield is expected to be larger than for the years past since the war."

We have received the annual report of the Fifth Cincinnati Exposition of 1874, and the rules and premium list for the coming Sixth Exposition, which opens September 8th next.

The Comptroller of the Currency has declared a dividend of 15 per cent. in favor of the creditors of the First National Bank of Norfolk, making in all 35 per cent.

The Authorities of New York are moving in the matter of establishing a house for the special treatment of sustruck and cases of accident.

Mr. Gladstone has an article in the Contemporary Review on the question, "Is the Church of England worth preserving," and arrives at the conclusion that it is.

McCulloch says forty millions of Frenchmen could subsist on that which forty millions of Americans throw away.

The pistol used by Aaron Burr in his duel with Alexander Hamilton is on exhibition at New Haven among other centennial relics.

HEARD FROM.—On Saturday a copy of the Londonderry (Ireland) Sentinel of the 8th inst. was received by a gentleman of this city, with the following notice marked:

"A curious case has occurred in Dublin. A young man was arrested on Friday, in a state of drunkenness. He gave his name as Macevelly and said he belonged to Tuam. On being searched, over one thousand pounds were found in his possession and detained by the police authorities. After a short incarceration he was released on his own recognizance to appear next morning. When called on he made no appearance, and has not since been heard of. If Mr. Macevelly does not turn up, the money will of course remain in safe custody until an owner is discovered."

It is thought to be barely possible that this party may be young Arthur Galt who lately absconded from this city with \$10,000 of bank funds. At least the person who sent the paper seems to be of that opinion. Capt. Norvell, Cashier of the bank, has telegraphed to the authorities to hold on to the money and sent the photograph of Galt for identification.—Lynchburg Virginian.

A GRAND HOTEL.—The Palace Hotel, now nearing completion, in San Francisco, is the largest hotel structure in the world. It covers 95,250 square feet of ground, and is seven stories high; 25,661,000 bricks were used in its walls, 3,000 tons of cast and wrought iron, and 4,561,524 feet of lumber and timber. It contains 1,080 windows, 377 of which are bay windows; 926 rooms, none of less size than 16x16 feet, and 358 bath rooms. It contains over three miles of halls; there are five passenger elevators and seven grand stairways; there are 4,540 doors, 9,000 gas burners, and thirty-two miles of gas and water pipe. It requires 50,000 yards, or twenty-eight miles of carpet. It can accommodate 1,200 guests, besides 360 servants and employees. And, best of all, there is not a dark or windowless room in the house. It has been decided to run a length of heavy plate glass, sixteen inches high, along the top of the balustrades and balustrades, as a precaution against accidents by children sliding down the balustrades or climbing the balustrades. This plate glass will reflect the gas jets, and at night the interior courts will present a dazzling scene.

THE WASHINGTON MONUMENT.—The Washington National Monument Society addresses the following appeal to the churches and Sabbath Schools throughout the country:

"As we celebrate the anniversary of the nation's birth let us remember him to whom, above all other men, we are indebted for our liberties. The monument to commemorate a people's gratitude to George Washington has stood in its unfinished condition for twenty years, without the means to carry on the work; and now, as the glorious 'American Jubilee' is gathered about us, it should be completed. In the name of patriotism, gratitude and national pride, the Monument Society renews its appeal to the country for aid to discharge a duty this nation owes to the brightest name in human history. We earnestly ask every minister of the Gospel and Sabbath school superintendent in the United States to take up a collection on Sunday, July 4 in aid of this great patriotic work, and to promptly forward their contributions to the treasurer of the Washington National Society, J. B. H. Smith, Washington, D. C. Let each contribute as liberally as he can, but let all give something."

COTTON FACTORIES.—Speaking of the profits of cotton mills an Atlanta, Ga., paper says: "In spite of the dullness of trade the cotton mills in Great Britain are earning handsome dividends. Some Glasgow mills have just divided twenty-five per cent; and of twenty companies in Manchester three paid, in 1874, forty per cent, twelve paid twenty-five per cent, two fifteen per cent, and three twelve per cent. The shares of many popular companies are in demand at three times their par value, with no sellers. Do not these figures overwhelmingly prove that well managed mills amid the cotton fields would be exceedingly profitable?"

And these results are achieved more than three thousand miles away from the cotton fields that furnish the staple upon which all this manufacturing prosperity is based! With such facts before us, can we doubt that well managed cotton mills in Virginia, would pay handsomely?

WOOL.—The profits of sheep husbandry may be fairly conceived from this single statement: During the present season three merchants of Warrenton—Messrs. Yates, Fletcher & Brother, and Ullman—have bought from farmers living within a radius of twelve miles upwards of 40,000 pounds of wool at an average of 33 cents per pound. The flocks from which this wool was shorn doubtless paid the owners in lambs a greater sum than they obtained from fleece. The product of both approximates \$30,000, and goes to a small number of persons. Sheep are unquestionably the most profitable stock a farmer can raise. It is folly to be deterred from attempting to raise them by fear of dogs. In the absence of protective laws the shepherd must be a law unto himself.—Warrenton Index.

TRICHINE IN A DUCK.—On Friday last Dr. William H. Taylor, analytical chemist of this city, received a dressed duck to be examined. The duck, which had been running about the yard, was caught and killed by a farmer near the city for his table, but when dressed, ready to be cooked, it was found to be filled with trichine or some other species of worm about an eighth of an inch long.—Rich. Dispatch.

Among the recent appointments of assistant surgeons in the army are the following: Walter Reed and Howard W. Rosser, of Virginia.

NEWS OF THE DAY.

"To show the very age and body of the Times."

The counsel of Wm. M. Tweed, yesterday, made a motion in the Court of Oyer and Terminer, before Judge Brady, to quash the indictments against him on the general ground that having already been punished for the offenses charged, he should not again be obliged to stand trial on those indictments, and also that the indictments not having been found within three years from the commission of the alleged offenses, they are consequently null. The counsel for the prosecution contended that the defense should not come before the Court on a motion to quash, but that the points set forth must be made when the defendant is called upon to plead. The Court took the papers in the case and reserved its decision.

Secretary Bristow, yesterday, directed the Treasurer to cause legal tenders to the amount of \$1,292,420 to be withheld from the available currency balance of the Treasury, redeemed and destroyed, the same being eighty per cent, of additional circulation issued to the banks during the present month. Until further resumption of the currency, the amount of United States notes outstanding, to be used as a circulating medium, shall not exceed \$375,771,580.

In Montreal Rev. G. Long has instituted action to restrain the Temporalities Boards of the Presbyterian Church, in connection with the Church of Scotland, from disposing of themselves of the reserve fund of \$558,000 otherwise than for the benefit of those who maintain connection with the Church of Scotland. Similar action has been taken in reference to the widows' and orphans' fund, which amounts to \$73,000.

In reply to the National Association of wool manufacturers at Boston, asking interposition of the Treasury Department to prevent fraudulent evasion of customs duty on a class of goods alleged to be made of hair and vegetable fibre without admixture of wool, the Secretary of the Treasury says no decision can be made in the premises until the case is thoroughly investigated.

The Postmaster General yesterday informed representatives of the three great telegraph lines that he would probably reduce the present rates one quarter of a cent on each word. The Western Union representative said his company would not consent to such reduction, while the Atlantic and Pacific line hoped in a short time to be able to accept much lower rates for the service.

A dispatch received at Washington yesterday from Pensacola announces that the German bark Von Moltke arrived at that place Sunday with several cases of yellow fever on board. One death had occurred. She was subjected to a strict quarantine, and there was no apprehension that the fever would reach the Navy Yard or city.

A dispatch from Brownsville, Texas, says a drove of stolen cattle crossed the Arroyo Colorado Saturday night. Rangers and regulars are in pursuit. It is reported that two hundred well armed Mexicans crossed at Culver Ranch three days ago.

A dispatch from Ottumwa says W. Logan, deputy city marshal, was shot and killed last night by one of the Smith boys. While Smith was on his way to jail from court the citizens mobbed Smith and hanged him to the nearest lamp post.

A dispatch from Pesth, Hungary, says that the loss of life by the storm of Monday is greater than at first reported. One hundred dead bodies have been taken from the Danube, and many more are supposed to have been carried off by the flood.

A Cuban dispatch states that the Spanish troops, on the 26th inst., attacked and dispersed two bodies of insurgents, eleven of whom were captured and summarily shot.

Rev. Father Krautbauer was yesterday consecrated bishop of Green Bay, Wis., at the Catholic Cathedral in Milwaukee. Archbishop Hennrich officiated as consecrator.

At Chicago, yesterday, a laborer named John O'connor, aged 65 years, shot and killed his wife, aged 40, at the breakfast table; cause, jealousy.

A royal decree has been issued at Madrid banishing from Spain all members of Carlist juntas, and families of which any member is in the Carlist service.

James Morgan, a miner at Franklin mines, Allegheny county, Md., was instantly killed in the mines yesterday morning, a mass of coal falling on him.

A fire at Paterson, N. J., yesterday, destroyed about \$200,000 worth of property. Insured for \$103,000.

The new International Court of Appeals was formally opened yesterday at Alexandria, Egypt, by the Khedive.

John Weller, aged 59 years, hanged himself Monday in his brother's cellar at York, Pa. Financial troubles was the cause.

The Sub-Treasurer paid out \$1,764,000 on account of interest and \$76,000 for call bonds yesterday.

The storm last night interrupted telegraphic communication with the North.

Count Corti, the Italian Minister, yesterday, presented his letter of recall to President Grant.

MARRIED.

On Wednesday, the 23d of June, at White Post, by Rev. Mr. Eggleston, assisted by Rev. J. R. Jones, GRAYMES MEADE and LIZZIE MASSEY, daughter of the late E. W. Massey, all of Clarke co., Va.

OBITUARY.

On Monday, June 21st, 1875, at his residence, Mount Pleasant, in Prince William co., Va., G. W. SANDERS, sen., in the 41st year of his age. The author of this obituary had known Mr. Sanders for several years, and always felt for him a sincere friendship and regard. Amiable and genial in his intercourse with his friends, by his sparkling and ready humor and intelligent and agreeable conversation, he was the life and soul of the social circle in which he was intimate.

By great and indefatigable industry and energy of character he had amassed previous to his death a comfortable independence, and his helping hand was always outstretched to give employment to the poor and needy. Hospitable to all, and kind, generous and social to a fault; he was an affectionate husband, indulgent father, an upright citizen and an honest man. "Few knew him but to love him, few named him but to praise." Stricken down by a disease which baffled all skill, and had been preying upon some time on a constitution naturally weak and delicate, and bearing it with patience and resignation, he gradually sunk under its influence, and calmly, quietly and without a struggle, our friend George W. Sanders passed away from earth to the eternal world. Over his faults, whatever they may have been—(for we all have them)—let us cast the mantle of oblivion, and endeavor to imitate his many virtues and noble qualities. May that God "who tempers the wind to the shorn lamb" watch over and protect the widowed mother and children, and may we all live as he did that the last of us may be able to say: "The liberal devotion liberal things, and by liberal things he shall stand"—in addition those other words of the great English poet: "A wife a feather and a chief a rod; An honest man the noblest work of God." [Manassas Gaz. please copy.] T. T.

On Tuesday, June 29th, at her residence, in Washington, Miss MARIAN KERR, daughter of the late Alexander Kerr.

Suddenly, on the 28th inst., in Washington, ADA GRACE, infant daughter of George W. and Ella G. Hallanger, aged 6 months and 18 days.

Distribution of Medals, &c.

Peabody Hall was thronged last night, the public, in general, seeming to take much more interest in the closing exercises of the public schools than has been done heretofore. After some delay, caused by getting ready the medals, some of which were not even engraved, but through the energy and perseverance of Major Duffey had been gotten out of the hands of the engraver, who had neglected to perform his promise, Superintendent Carne called the assembly to order. The girls, all in white, and tastefully adorned with ribbons and flowers, presented a beautiful appearance.

Cards of Honor were then handed by the Chairman of the School Board to the following pupils, viz:

No. 4, (Miss Walsh's): Jennie Bell, for diligence and punctuality; Mary A. Boutz, Eva Cook, Lessee Cook, Hannah Driscoll, Nettie Horsemann, Lulu Horsemann, Margaret Holt, Minnie Holt, Mary Kresmer, Belle Mulley, Roberta Medley, Alice McCullough, Alice Sinclair and Annie Trice, for diligence and deportment; and to Maggie Lee Aitchison, Annie Albright, Lizzie Albright, Cora L. Baker, Kate Brill, Ella Brown, Jane Clark, Fannie Deaton, Kate Dilger, Ella Gill, Myrtle Graves, Florence Huntington, Willie Henry, Emily Herber, Ada Jarvis, Lizzie Jones, Mary Kealey, Lizzie Kelly, Shobebe Ludwig, Annie Lyles, Cora Lyles, Nellie Lash, Mary McQueen, Ella Massey, Kate Phillips, Gertrude Stansbury, Minnie Stansbury, Mary Sales, Florence Studds, Lizzie Taylor, Kate Taylor, Frances Wells, Rose Wells and Ada Woodfield, for diligence.

No. 3, (Miss Mills's): Rosa Boyd, Lulu Crum, Cora Cole, Jennie Davis, Laura Harrison, Mary Kelly, Carrie Lyles, Mary Lambdin, Jennie Monnjoy, Stella Murray, Laura Noland, Rosa Proctor, Ida Phillips, Laura Rudd, Holly Spellman, Kate Smith, Virginia Simpson, Bertie Shirts, Mollie Sampson, Maggie Smith, Belle Sartore, Sarah Trice, Elsie Vickers, Annie Ward, Carrie Atwell, Barbara Baird, Alice Dunington, Fannie Dean, Ella Fisher, Ada Gray, Annie Gray, Tonia Lurie, Medora Rust, Vene Reece, Ada Smart, Laura Smith and Ella Sherwood, for diligence.

No. 2, (Miss Clark's): Rebecca M. Monroe, for diligence and punctuality; Annes Starne, Maggie Sinclair, Cora Tatsapach and Maggie Dean, for diligence and deportment; Ida Cox, Virginia Ludwig and Daisy Robinson, for deportment; and Lillie Clapdore, Rebecca Green, Cora Lash, Cora T. Padgett, Lizzie Schlegel, Ella A. Smith, Maggie Aitchison, Louisa Aitchison, Teresa Henshaw, Nettie Henshaw, and Maggie Sidebottom, for diligence.

No. 1, (Miss Laws'): Ida M. Cushing, Annie Richards, Ella Tatsapach, Edie Ramey, Addie Rudd, Sarah Ruben, and Lillie Ward, for diligence and punctuality; and Lulu Johnson, Lillie Phillips, Lillie Kuid, Marie Ramey, Jiddie Doran, and Della Dean, for diligence. Mr. McKeezie then made a few remarks, expressing his gratification at what he had seen in the public school examinations, and his conviction that there was no longer a necessity for private schools, and at his request the Chairman presented the following premiums, given by him and awarded by the teachers, for improvement, viz:

Lee School, No. 1: Lillie Rudd and Bridget Doran.
No. 2: Hattie Reese and Daisy Robinson.
No. 3: Lulu Crump and Edie Fisher.
No. 4: Eva Cook and Belle Medley.
Washington, No. 1: John Green.

Premiums were also given to Ella Tatsapach, of Lee, No. 1, and Mary Page, of Lee, No. 2, by their respective teachers.

Joseph Hopkins, esq., of the Board, then presented to Sarah Ruben, of Lee, No. 1, a handsome medal promised by him to the most unselfish girl in the school, it having been voted by her companions. Mr. H. accompanied the presentation with a few appropriate remarks.

Maj. George Duffey next came forward, and bestowed upon William A. Merchant, of Washington, No. 1, as the successful competitor in the spelling match, a heavy gold medal, and said:

"The medal is given for your correctness in spelling, and for your proficiency in this study, and as a reward for your perseverance in the present day have advantages in obtaining an education that ten years ago was never dreamed of by their predecessors. Freely it is tendered to you, and I hope your example may induce your school mates to strive for a prize in the coming year, ever bearing in mind that nothing great or good can be attained without industry and perseverance."

Mr. Snowden, for Mr. Theodore H. Ficklin, gave to Mollie Sampson a pretty silver medal as the victor in the oral match between the lower grades.

The Superintendent gave his medal for Lee School to Miss Annie Richards, and medals were given, on the part of the teachers, to Misses Lulu Johnson, of the 7th grade, Edie Ramey, of the 6th, and Mattie Ramey, of the 5th, all of Lee, No. 1, and to Misses Cora Tatsapach, Teresa Henshaw, Maggie Dean and Maggie Sinclair, of Lee, No. 2, all for diligence in studies.

The Carne Memorial Medal was awarded by vote to Miss Lila M. Cushing.

The Chairman then said that Geo. R. Shion, esq., President of the Common Council, had promised to attend to present a beautiful gold medal, given by him to the pupil of Lee School, No. 2, who might have improved most in penmanship, but that he (Mr. Shion) was, he presumed, too much indisposed to attend. He, therefore, presented it for him to Miss Nannie Smith. He, also, presented a gold medal on the part of S. C. Neale, esq., who is absent at the University, to Samuel M. Upton, of Washington, No. 1, for superior drawing.

Lastly, the Superintendent gave his medal for Washington School to Wm. F. Richards, and after the necessary instruction concerning the reopening, closed the exercises.

SAM BARD.—A new phase was developed yesterday in the matter of the Atlanta postmasterhip. Mr. Samuel Bard has notified the Postoffice Department that he insists that he has not resigned the office, but he looks upon his displacement as a suspension under the tenure-of-office act, which will have to be acted upon by the Senate when it convenes next winter. In consequence of this the Postmaster General yesterday submitted the question to the Attorney General with a request for his opinion. It is the determination of the department to get rid of Mr. Bard, and if the Attorney General decides that his letter does, as he claims, not constitute a resignation, he will be suspended under the tenure-of-office act, and Mr. Conley, the new appointee, ordered to take possession.

GOOD WORK.—Yesterday the American Coal Company loaded at Jackson Mine 133 loads, or about 1,350 tons of coal, which is the best work that was ever performed at one shute on George's Creek. Much credit is due Mr. Thomas Beaman and his efficient assistant, Will Darr, for the manner in which they regulated the hoppers. If any of the companies can beat this let them come forward.—Lynchburg Press.

We have received the first number of the National Protestant, published in New York, and devoted to the maintenance of Protestant supremacy in this country.

FIRST NAT'L BANK OF ALEXA., V.A., Mount Pleasant, in Prince William co., Va., The SEMI-ANNUAL DIVIDEND (six per cent) will be paid to the stockholders on and after TUESDAY, July 6th, 1875. je 30-31 CHAS. B. HOFF, Cashier.

REDUCTION IN LACE GOODS.

Being desirous of closing out our stock of Lace Points and Sacks, we will sell them at a very great reduction. je 24 D. F. WITMER CO.

ARRIVED.
Steamer Jane Moseley, Norfolk, to F. A. Reed. She reports the schooner R. L. Taylor, from Georgetown, with a cargo of coal as hard ground at Cornfield Point, mouth of the Potomac river, with her sails carried away; also as passing three coasters in the river bound up.

Schr Charles Morton, Providence, to Hampshire and Baltimore Coal Co.
Schr W. D. Marvin, from Georgetown.

Schr J. V. Wellington, for this port, cleared at Boston 28th.
Schr A. F. Kindberg, hence for Boston, passed through Hell Gate 28th.
Schr Geo. H. Twybell, hence, at Norfolk 27th.

CANAL COMMERCE.

Arrived.—Bats M. Ruben and Chas. Ridgley, via Rock Creek, to Hampshire and Baltimore Coal Co.; Nannie Grove, to J. F. Agnew.
Departed.—Bats M. Ruben and Chas. Ridgley, to A. S. Winttingham, Geo. Sherman, Chas. Clifton, M. Snow, R. T. Semmes, M. A. Tice and Bella.

IN THE CIRCUIT COURT OF ALEXANDRIA CITY, May term, 1875.—

William H. Taylor, plaintiff, against John Nagle, junior, and Catherine A. Nagle, his wife, Phebe Warren Taylor, John Dickinson Taylor, Edward Thornton Taylor, Mary C. Perry, Thornton Taylor Perry, Edward Taylor Perry, George B. Warren, junior, and E. P. Warren, his wife, John Paine and Julia D. Paine, defendants. In remembrance.

The Court doth adjudge, order and decree that one of the Master Commissioners of this Court ascertain and report to the next term of this Court what amount of compensation Francis L. Smith is entitled to on account of his professional services in this suit, and how much money has been paid him thereon; and that the said Commissioner do further ascertain and report what amount has been paid by John Nagle, junior, to the executors of Wm. H. Taylor, or either of them, under the decree in this cause of the May term, 1873, and whether the costs of this suit have been paid according to said decree. Said commissioner may give notice of his proposed action under this decree by publication in once a week for four successive weeks in the Alexandria Gazette, and such publication shall be equivalent to personal service of such notice on all parties.—[Decree May 31st, 1875.]

ALL PARTIES interested in the above suit and proceedings therein are hereby notified that I have fixed upon MONDAY, the 2nd day of August, 1875, at my office, Market street, between Adams and Virginia streets, and Building, Alexandria, Virginia, as the time and place when and where I shall proceed to execute the above decree, at which time and place they are required to attend.

Given under my hand, as Commissioner in Chancery of the said Court, at my said office, this 30th day of July, 1875. A. W. CHILTON, Comm'r in Chancery.

POTATO BUG.

PARIS GREEN, CARBOLIC ACID and CARBOLIC SOAP, for the destruction of the Potato Bug—a full supply, with directions for use, for sale by

E. S. LEADBEATER & BRO.
BENSON'S CEREAL and CHAMOMILE PILLS.

These Pills are prepared expressly to cure Headache, Neuralgia and Nervousness. For sale by [je 30] WARFIELD & HALL.

DROPPING TUBES, also Glasses for measuring tea and tablespoonfuls; very useful in a sick chamber; for sale by

E. S. LEADBEATER & BRO.
THERMOMETERS, of various sizes and prices, received and for sale by

E. S. LEADBEATER & BRO.
HUBBELL'S PREPARED WHEAT for children's diet, just received and for sale by

WARFIELD & HALL.
HAVING THIS DAY DISPOSED OF MY business in the city of Alexandria, Va., to

Mr. O. W. YUNDT.
I would respectfully return thanks for the patronage bestowed upon me, and ask a continu
